### The Self Illusion How Social Brain Creates Identity Bruce Hood

Bruce was kind enough to answer a few questions about his new book, The Self Illusion: How the Social Brain Creates Identity. \* \* \* In what sense is the self an illusion? For me, an illusion is a subjective experience that is not what it seems. Illusions are experiences in the mind, but they are not out there in nature.

### The Illusion of the Self | Sam Harris

In The Self Illusion, Hood argues precisely that. After exploring various definitions of self--a soul, an agent with free will, some essential and unique set of qualities--he concludes that what we...

### MIND Reviews: The Self Illusion - Scientific American

Hood's thesis is that the self is an illusion, but what this means is not clear. He uses the analogy of a Kanizsa triangle to illustrate the idea that the "self" is carved out of the negative space created by social and cultural interactions. It's an interesting analogy but as far as I can tell it doesn't lead

anywhere.
